- **Defects and Enhancements**
- **Effects**
- **Benefits**
- **Schedule**
- **Summary**

Purpose

- **Provide an update on changes to the reporting products to be distributed with PD² version 4.1e**
 - **Defects Addressed**
 - **Enhancements**

Background

- **January**
 - **AMS identified three defects to the PD² catalog**
 - **AMS/JRB-RWG developed list of enhancements to include in the catalog re-development**
 - **AMS/JRB-RWG agreed on schedule to enhance the catalog**
- **February**
 - **AMS began catalog enhancement**

Defects Addressed

- **Changing document numbers:**
If a document number has been changed in PD², the catalog and reports continued to display the original document number.
- **Only supp-PIINS displayed:**
When selecting delivery orders, bpa calls and modification documents, only the supp-PIINs were displayed.
- **Awards without Mods eliminated from query**
Selecting base document number and supp-PIIN had the result of eliminating award documents that had no modifications.

Enhancements

- **JRB Report Working Group Priorities**
 - **DD350/DD1057 catalog/cube usability improved**
 - **Job Order information added**
 - **Vendor data availability expanded**
 - **Document creator/creation date added**
 - **Payment information added**
 - **Funds Certification Document added**
 - **!! Postal regulation mailing label template created**

Enhancements - Summary

Enhancements represent a significant increase in the PD² data made available via the catalog

	No	<i>Added</i>	Delete	Rename
Folder	Change	56	9	93
Fields	1430	342	68	489

- 47% increase in number of folders
- 23% increase in number of fields

New Catalog's Effects

- **Update Existing non-standard reports**

Many existing non-standard government reports may require updating before they can work with the new catalog.

- **Support**

The KM Team will provide support in updating existing AMS developed reports to produce the same functionality (*AMS is working with the JRB-RWG to determine the priority and logistics of the report redevelopment effort*).

Benefits

- **More intuitive DD350/DD1057 reporting**
- **Expanded reporting functionality**
- **Ability to report on all awards & mods in the same report**
- **One new reporting catalog that works with all delivered maintenance releases**
- **Established working relationship with RWG**

Schedule

- **Complete new 4.1e catalog changes**
Feb 18
- **Test at AMS** *Feb 22 -*
Apr 24
- **Presented catalog to RWG** *Mar 29*
- **Joint Testing** *Apr 11 -*
Apr 12
- **Release for Web Download** *Mid May*
